

BizBroadcast™

We Make Excel Reporting Fun.

BizBroadcast allows you to share hundreds of reports with one click. A leader in report distribution software, BizBroadcast is completely customizable so that you can share and receive only the data you need. Designed for simplicity, common functions are built within a friendly interface providing the control to send reports to multiple users in a variety of formats. Need to automatically send a specific report every morning? Schedule it. Need to alert the boss of unusual trends? BizBroadcast offers conditional formatting to send on its own.

Start your report distribution

Create distribution scenarios based on specific definitions

Quickly view BizBroadcast settings and parameters

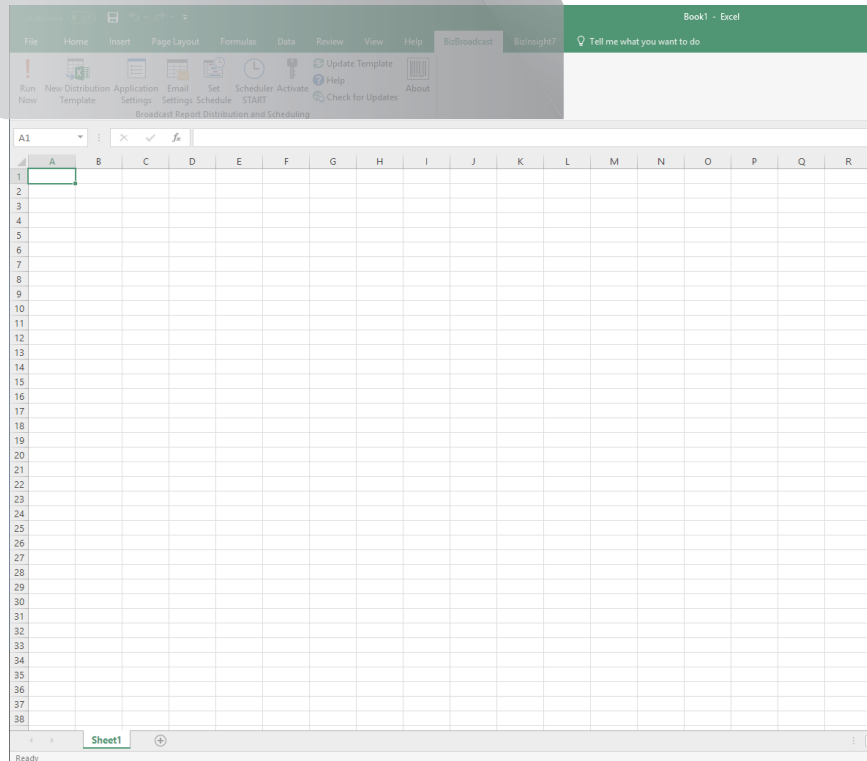

Setup specific email accounts for distribution

Schedule and automate reports down to the hour and day

Start your distribution with a single click

BizBroadcast™

We Make Excel Reporting Fun.

Client Workstation

- Windows Vista, Windows 7, Windows 8, Windows 10, Windows Server 2003, Windows Server 2008 Windows Server 2012 and Windows Server 2012 R2
 - Microsoft .NET Framework 3.5 SP1, Microsoft .NET Framework 4.5 SP2 Client Profile.
- See "Supported Office Versions and Deployment Methods" for information on supported Microsoft Excel versions and deployments.
- If using Excel 2007, the 2007 Microsoft Office Add-in: Microsoft Save as PDF or XPS is required if the PDF or XPS Render Formats will be used.
 - Adobe Reader (required for broadcasting to printer and viewing PDF bookmarks)

Terminal Services / Citrix Environments

BizBroadcast can be installed in a Terminal Services/Citrix Environment but requires a separate license. Contact your Sales representative for information on pricing. Environments in which user profiles are being deleted, when the user logs off, will require special steps at user login to reinstate BizBroadcast.

Important

The Scheduler feature of BizBroadcast is designed for interactive desktop use only and is not recommended for use in a Terminal Services/Citrix environment where session timeouts can occur.
